

Introduction:

Hook:

You would be surprised by how many nine-to-five workers there are out there making some spare change with Etsy.

They don't realize that they could replace that full-time job with a shop that does five figures per month.

Super Hook:

It wasn't long ago that I was grinding away at a Shopify store with shocking profit margins.

I'm now running multiple five-figures per month Etsy shops hands free.

Lead:

Everything changed when I decided to stop winging it.

This was the moment that I doubled down on pattern recognition.

Body:

Staying at the bottom is inevitable when climbing to the top is being left up to chance.

I'm talking about going with the niche that feels right, prioritising quantity over quality, and pulling all of the wrong levers.

This means that you only find out it doesn't work once you're already in too deep, you spread yourself too thin, and you get buried in a corner of the platform.

Every single move that you make should be in agreement with what's already proven to Succeed.

I'm talking about picking the niche that makes the most sense, providing real value to the market, and focusing on the needle-moving tasks.

This means that you separate the good from the bad before committing to anything, you stand out amongst the crowd, and you get the recognition that you deserve.

Call-To-Action:

I've put together a free recorded training that covers all of this.
