**Skyrocket Your Etsy Shop
To **Five Figures Per Month**
In The Next 90 Days
With “**The Precision Play**”**

This is without gambling on the niche,
having an endless product line,
or getting hidden away.

**I'll be opening the floor for a Q&A
if you stay until the very end.**

Here's what I'll be **covering tonight...**

1 How to select winning niches.

- 1 How to select winning niches.**
- 2 How to create incredible products.**

- 1 How to select winning **niches**.
- 2 How to create incredible **products**.
- 3 How to outperform all of your **competitors**.

There are **plenty** of nine-to-five workers
trying to replace their full-time job.

**The worst approach
to take for this is winging it.**

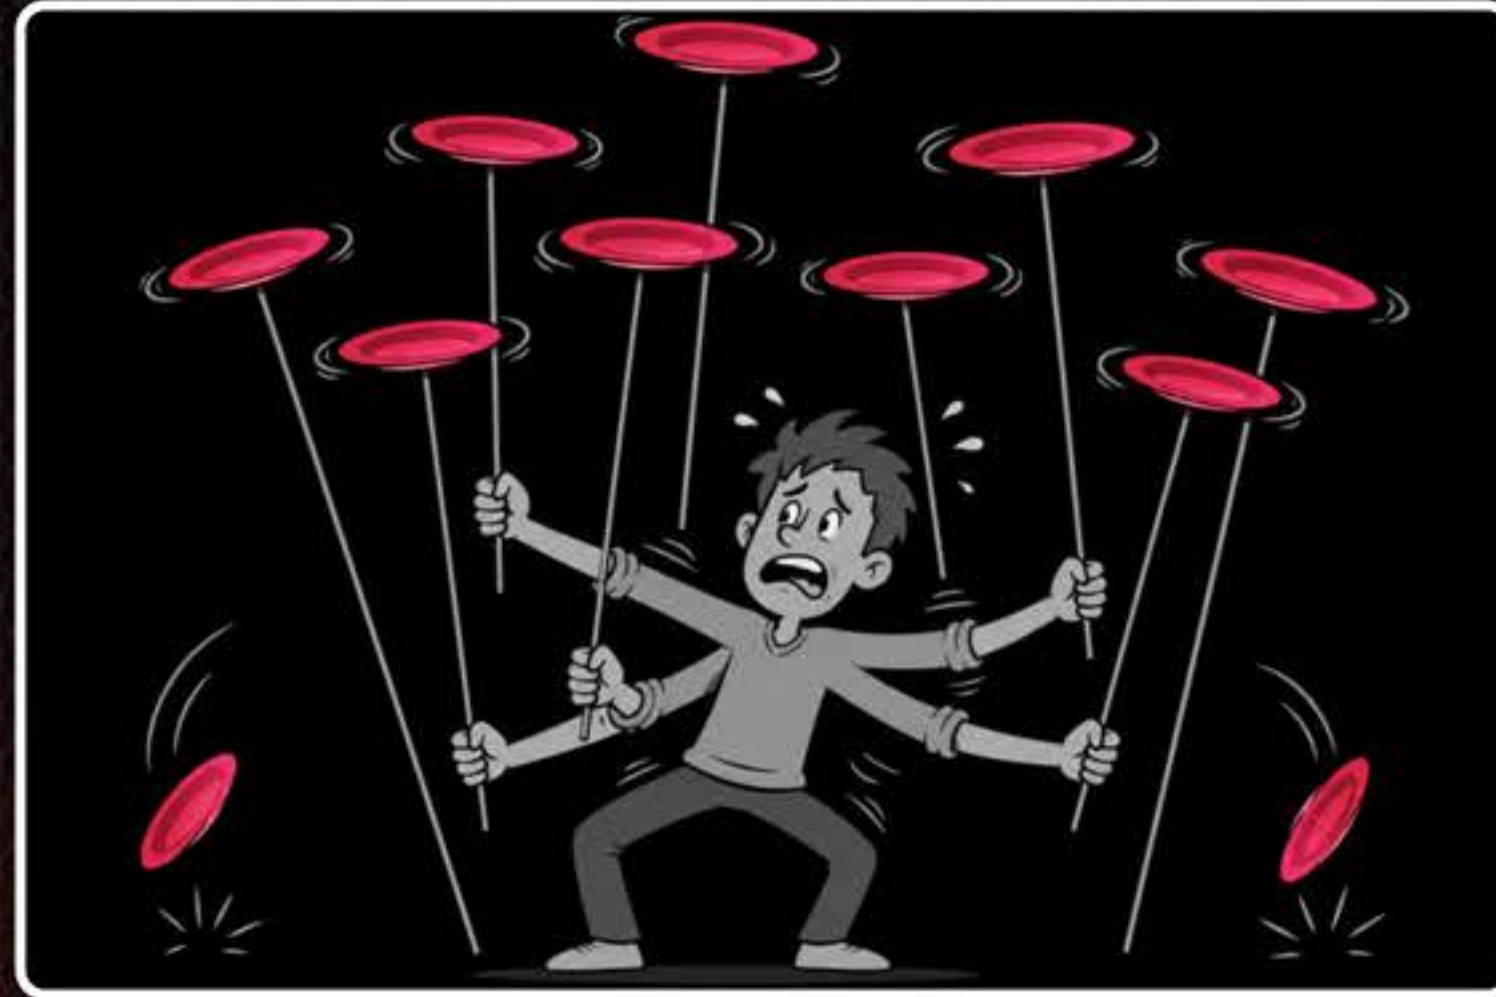

This **problem presents itself
in three different ways...**

It has you going with
the niche that **feels right**.

This means that you only find out it doesn't work
once you're already **in too deep**.

It has you prioritizing
quantity over quality.

This means that you
spread yourself too thin.

It has you pulling
all the **wrong levers.**

This means that you get buried
in a **corner of the platform.**

Isn't **following your passion** the right move?

This is only correct when it adheres
to the law of **supply and demand**.

**Staying at the bottom is inevitable when
climbing to the top is being left up to chance.**

The **best approach** to take for this
is doubling down on pattern recognition.

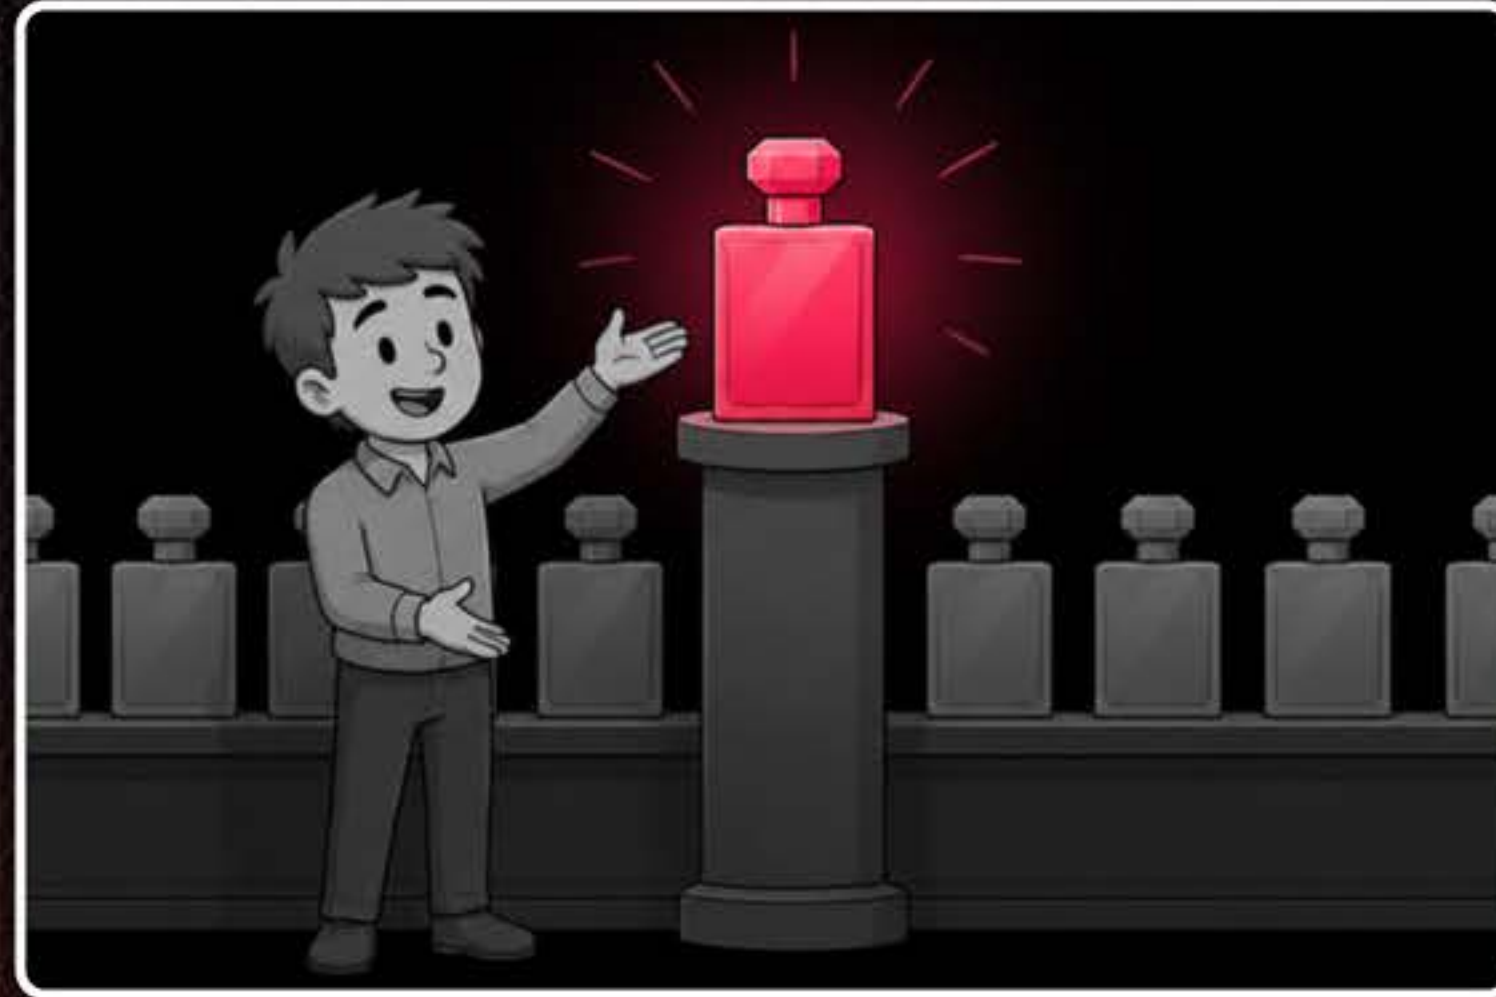

This **solution also presents itself
in three different ways...**

It has you picking the niche
that **makes the most sense.**

This means that you separate the good
from the bad **before committing to anything.**

It has you providing
real value to the market.

This means that you **stand out**
amongst the crowd.

It has you focusing on
the **needle-moving tasks**.

This means that you get
the recognition that you deserve.

How do you know that it isn't **too saturated
for reading between the lines?**

**This is only an issue for the sellers
that are **reliant on luck**.**

**Every single move that you make should be
in agreement with what's proven to succeed.**

I want you to **imagine something** for a second.

You're **sitting at home** on a weekday
instead of being at the office.

You open your laptop to check
your **Etsy dashboard** real quick.

You see that your store is sitting at
yet another **five-figure month**.

**This is literally the life that
“The Precision Play” has created for me.**

Would learning how to **make this happen
be worth the next hour of your time?**

Type "YES" in the chat if it would.

It all started with **wanting some
time, location, and financial freedom.**

I was **grinding away** at a Shopify store
with shocking profit margins.

This turned into running Etsy shops
that hit five figures per month **hands free.**

I've gone on to make **over \$360,000**
with them while living my best life.

I'm now helping others **do the same
and building a software for it.**

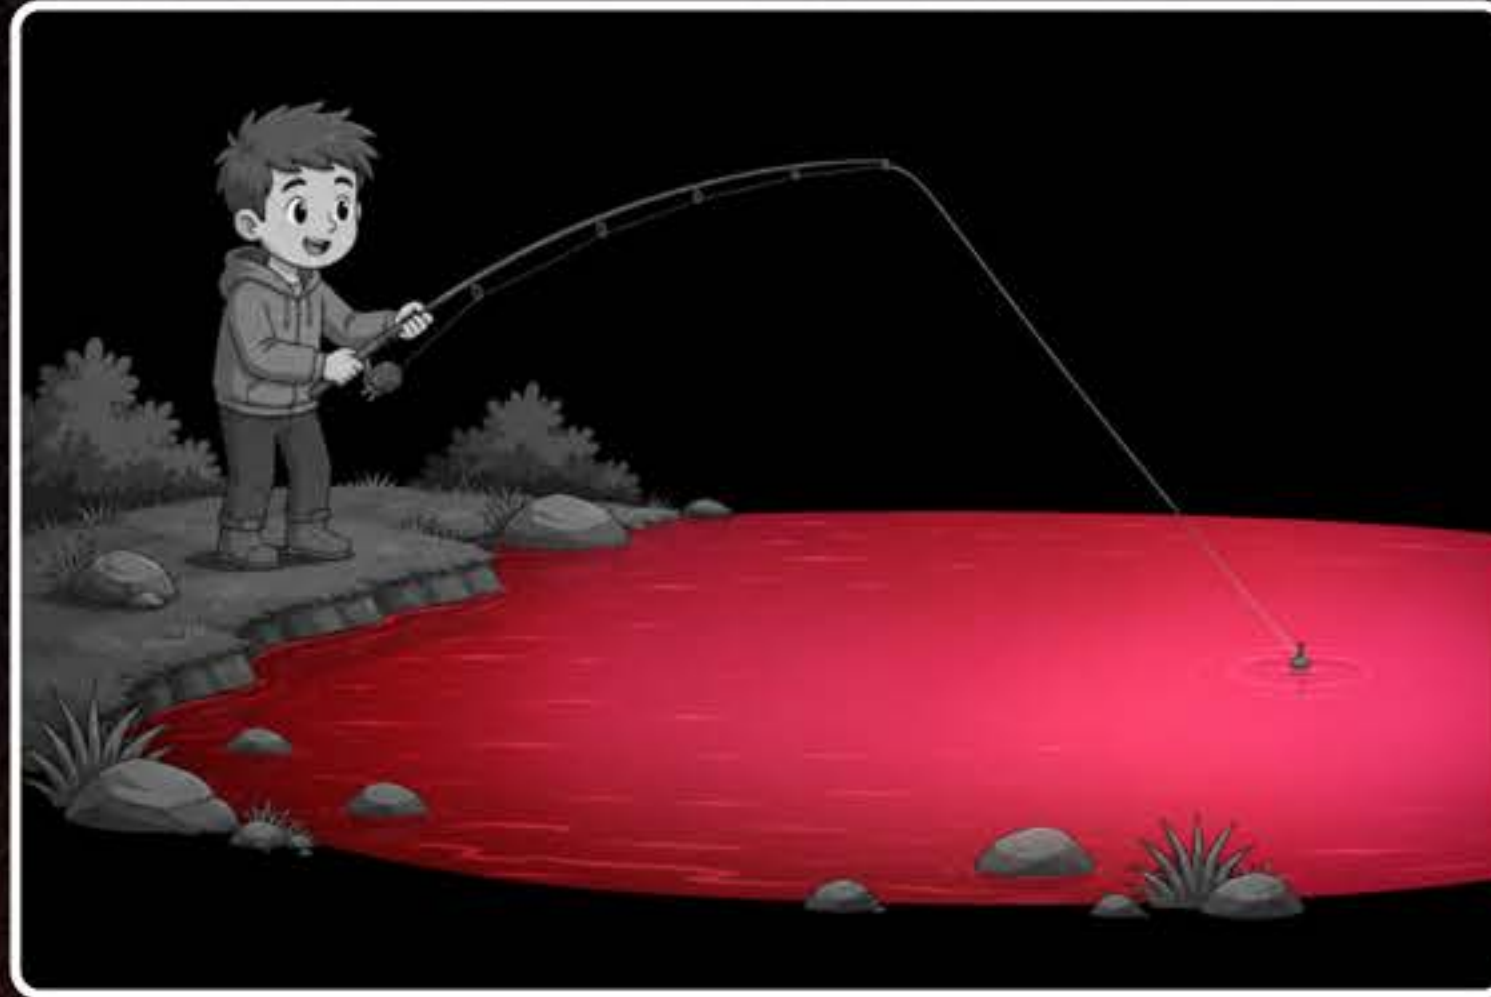

Does this **sound like something**
that you would do yourself?

Type "YES" in the chat if it is.

I want you to **think about**
two people trying to catch fish.

The first one is taking it easy.

It has them dropping the line
wherever the water **looks nice**.

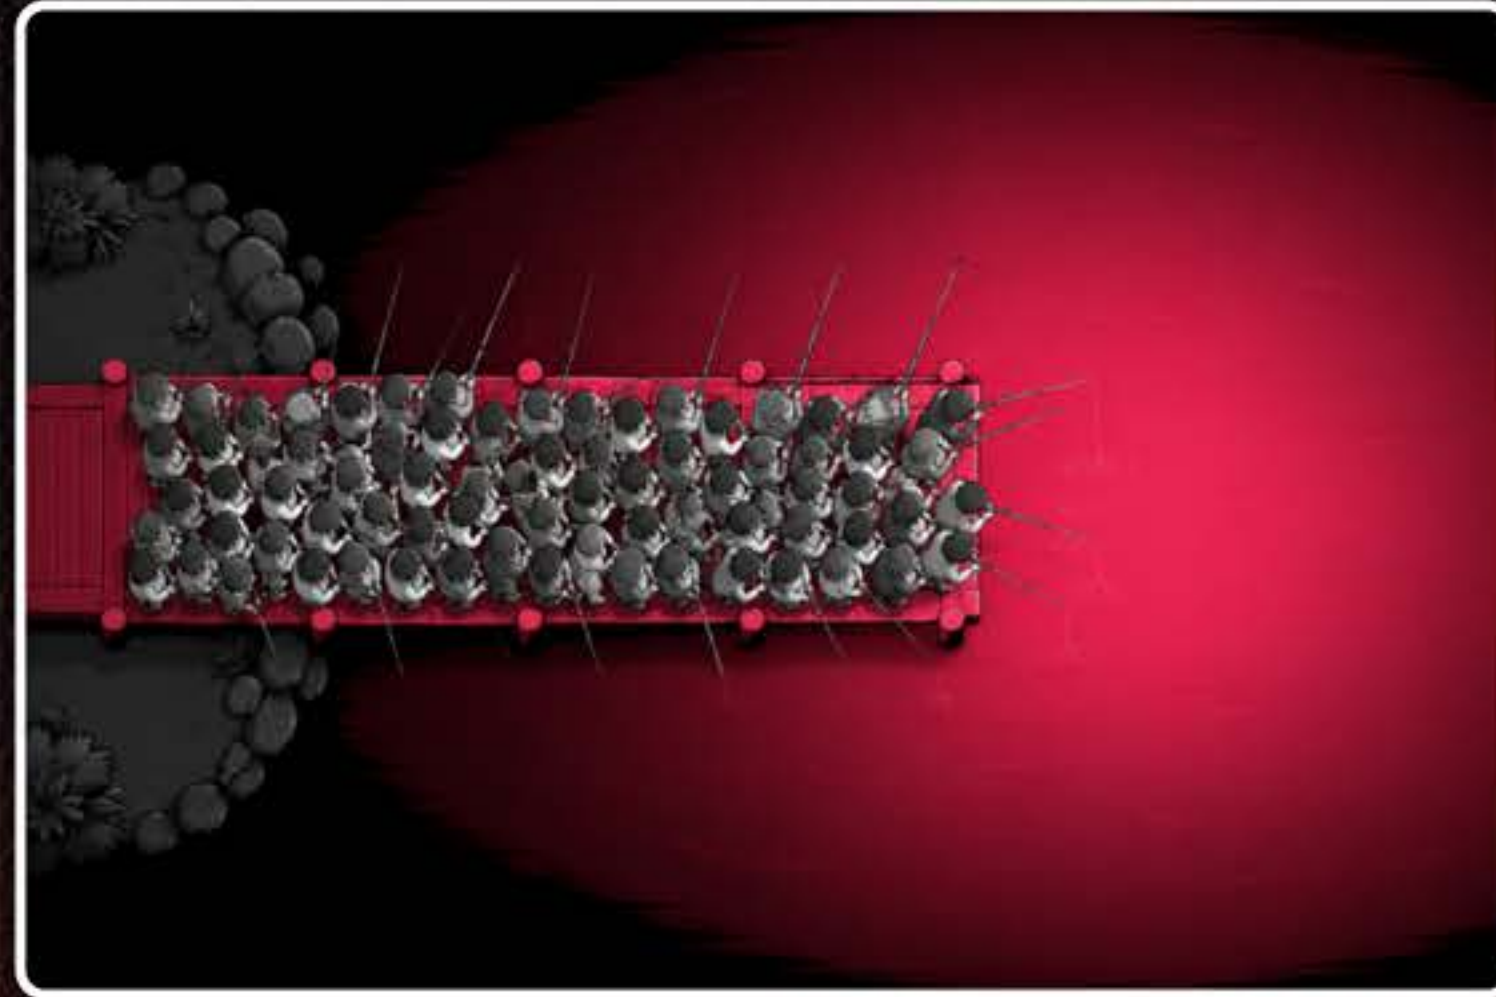

This means that they figure out that
it's empty **after standing there** for hours.

It has them tipping in bait
by **the bucketload**.

This means that they empty
all of their resources for nothing.

It has them casting where
everybody else is standing.

This means that they have
come too late to the party.

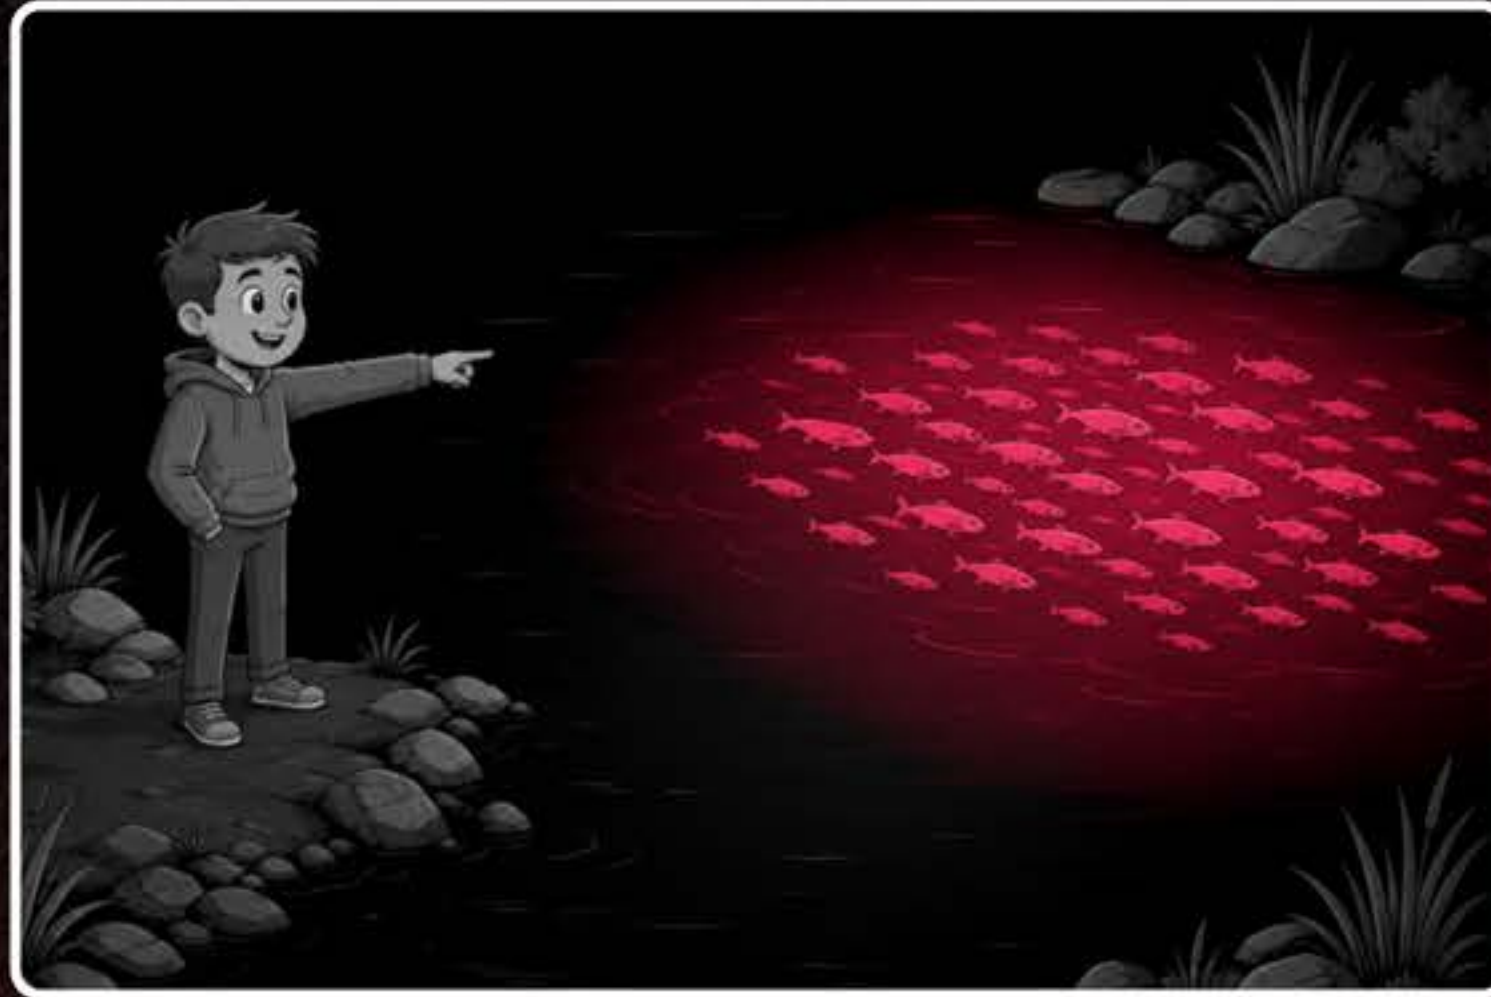

Don't you have **better odds** with a wider net?

The possibility is higher,
but the probability **isn't necessarily**.

**Coming home empty-handed is inevitable
when the entire catch is being left up to chance.**

The second one reads the waters.

It has them **determining beforehand**
where the fish have been shoaling.

This means that they can tell
the **full and empty** areas apart.

It has them giving the right amount of bait
to the fish that are **going to bite** on it.

This means that their line **gets chosen**
instead of all of the others.

It has them beating
everybody else to **the quiet area.**

This means that they land
the most impressive catch of the day.

Don't the productive spots get scooped up instantly?

The crowd are all piling onto the same jetty.

Every single cast that you make should be where the fish have already been **proven to bite.**

It comes down to **the three pillars**
that you're about to learn.

Type "YES" in the chat if you're ready.

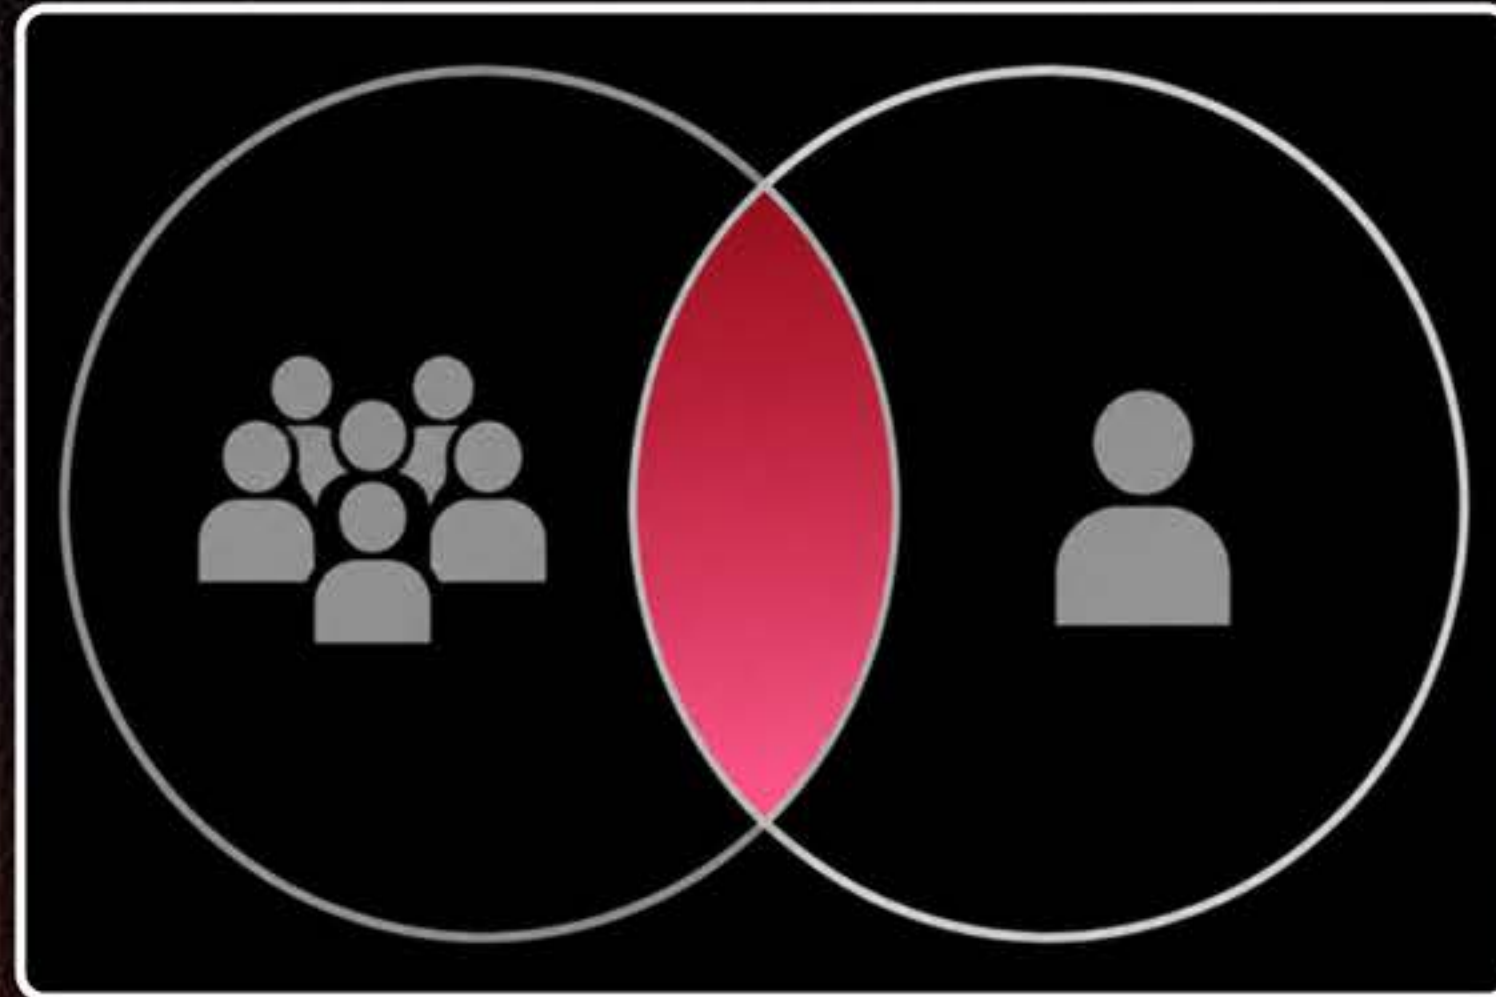

Pillar One:

How to spot winning **niches**.

It all starts with knowing
what's worth it from the get go.

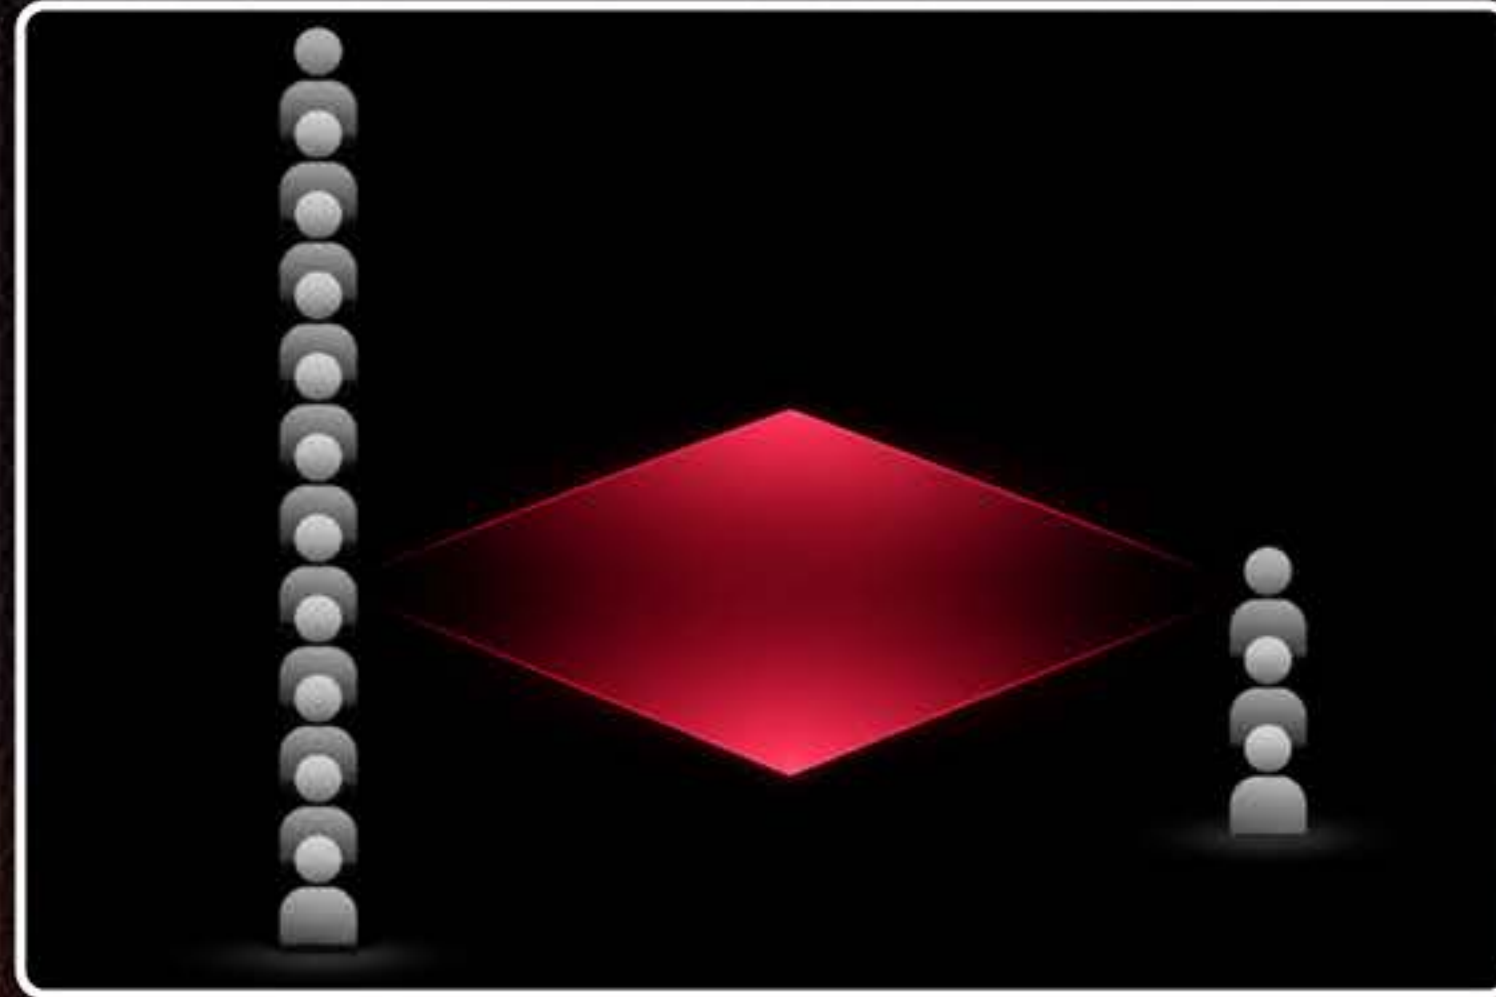

You want to choose the niches
that have **existing demand**.

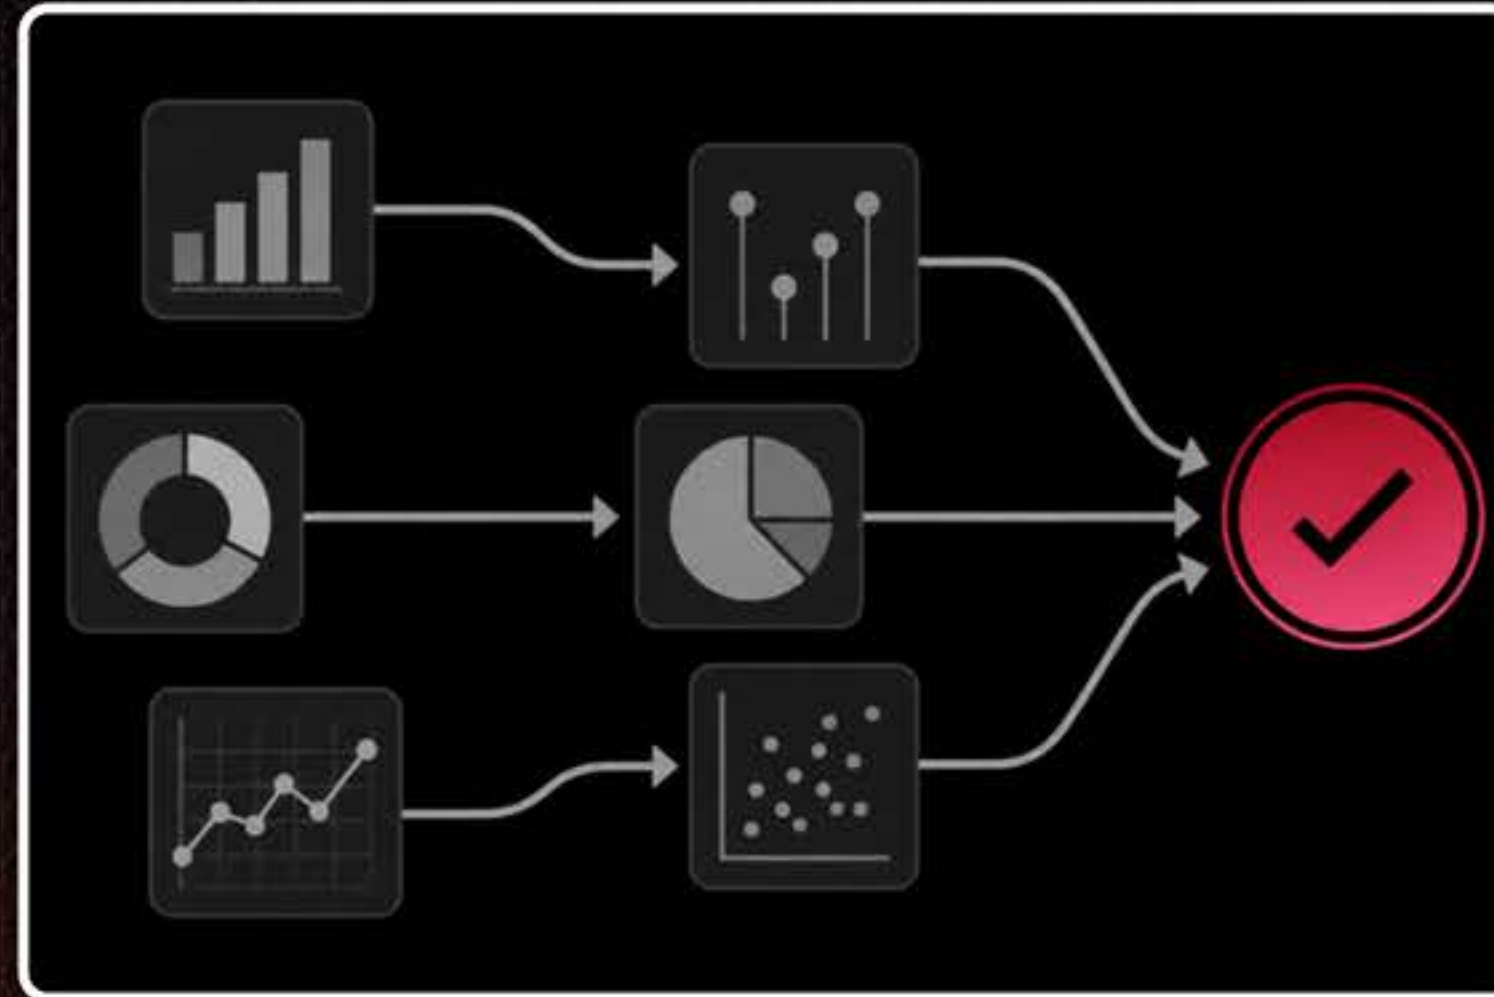

It gets supplied with your
personal taste though.

You want to **seek out** the ones
with many buyers and few sellers.

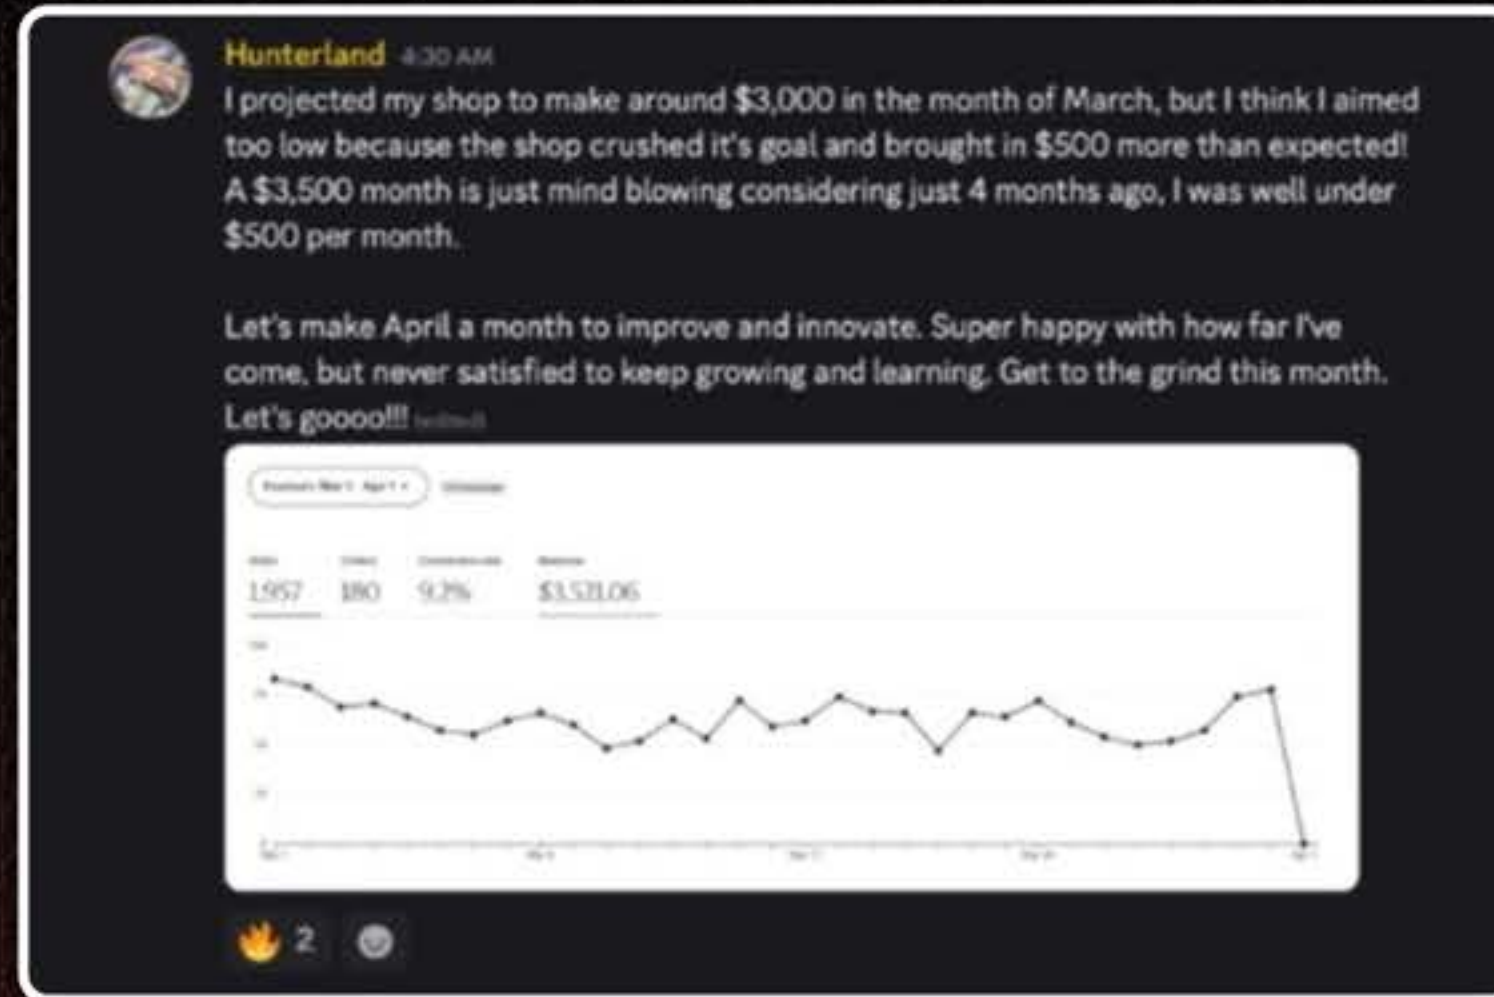

This gap is where goldmines
are **hiding in plain sight**.

You want to validate it
with prior **market research**.

Every single option must have
stemmed from a calculation.

Hunter put this
into practice **right away**.

He ended up making
\$500 more than expected.

Is all of this **making sense** so far?

Type “YES” in the chat if it is.

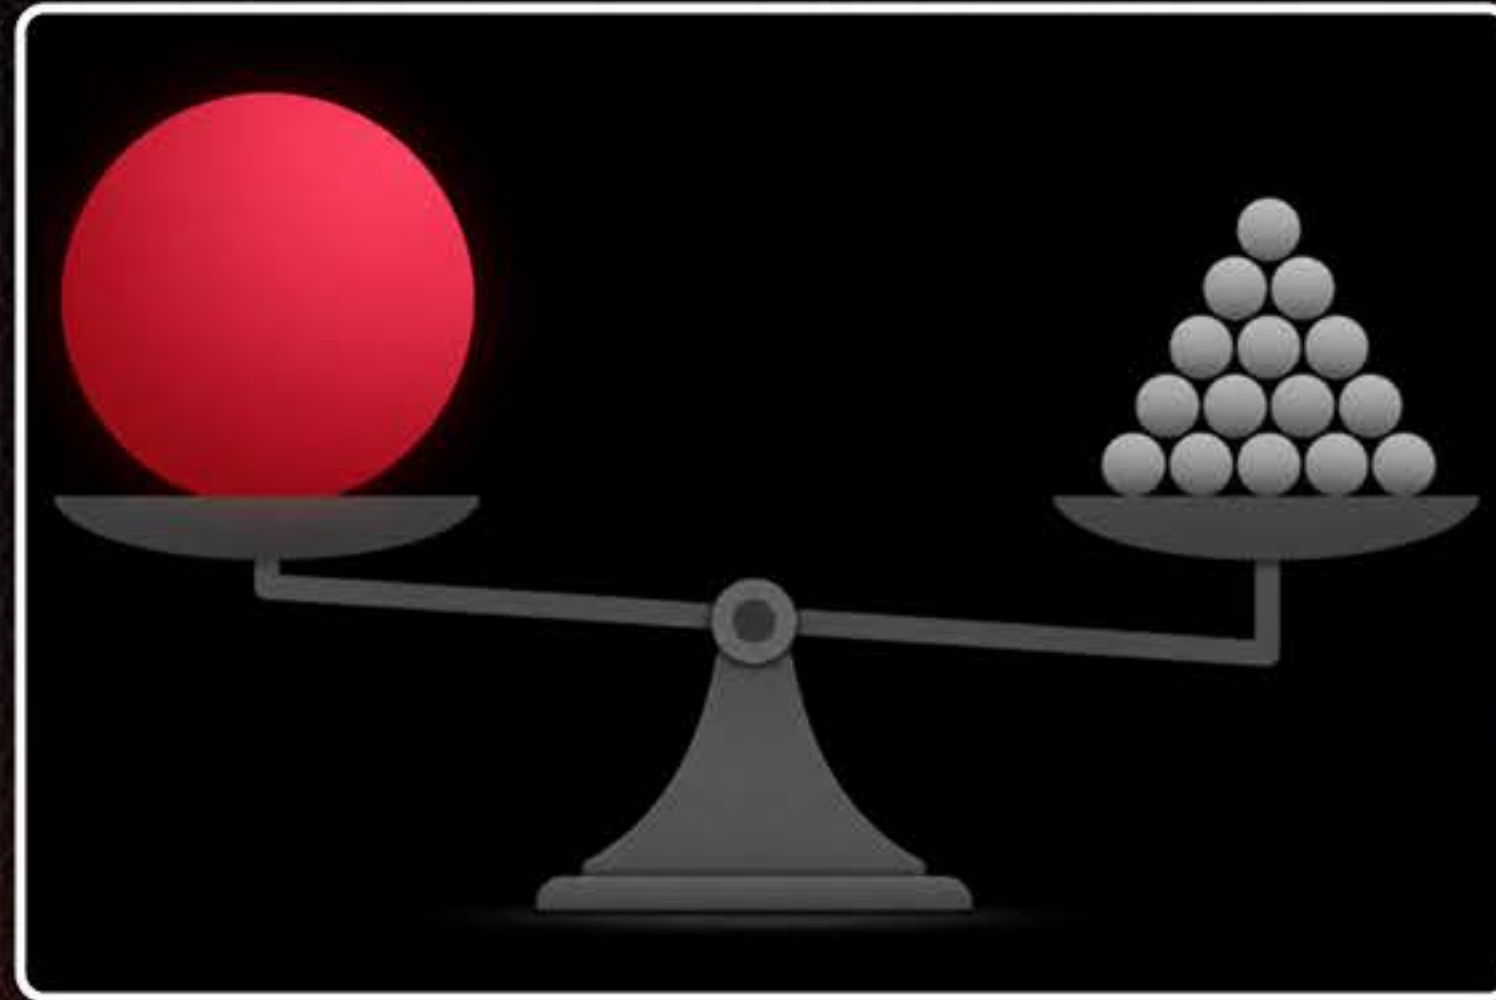

Pillar Two:

How to create incredible **products**.

This is the **bread and butter**
of the business model.

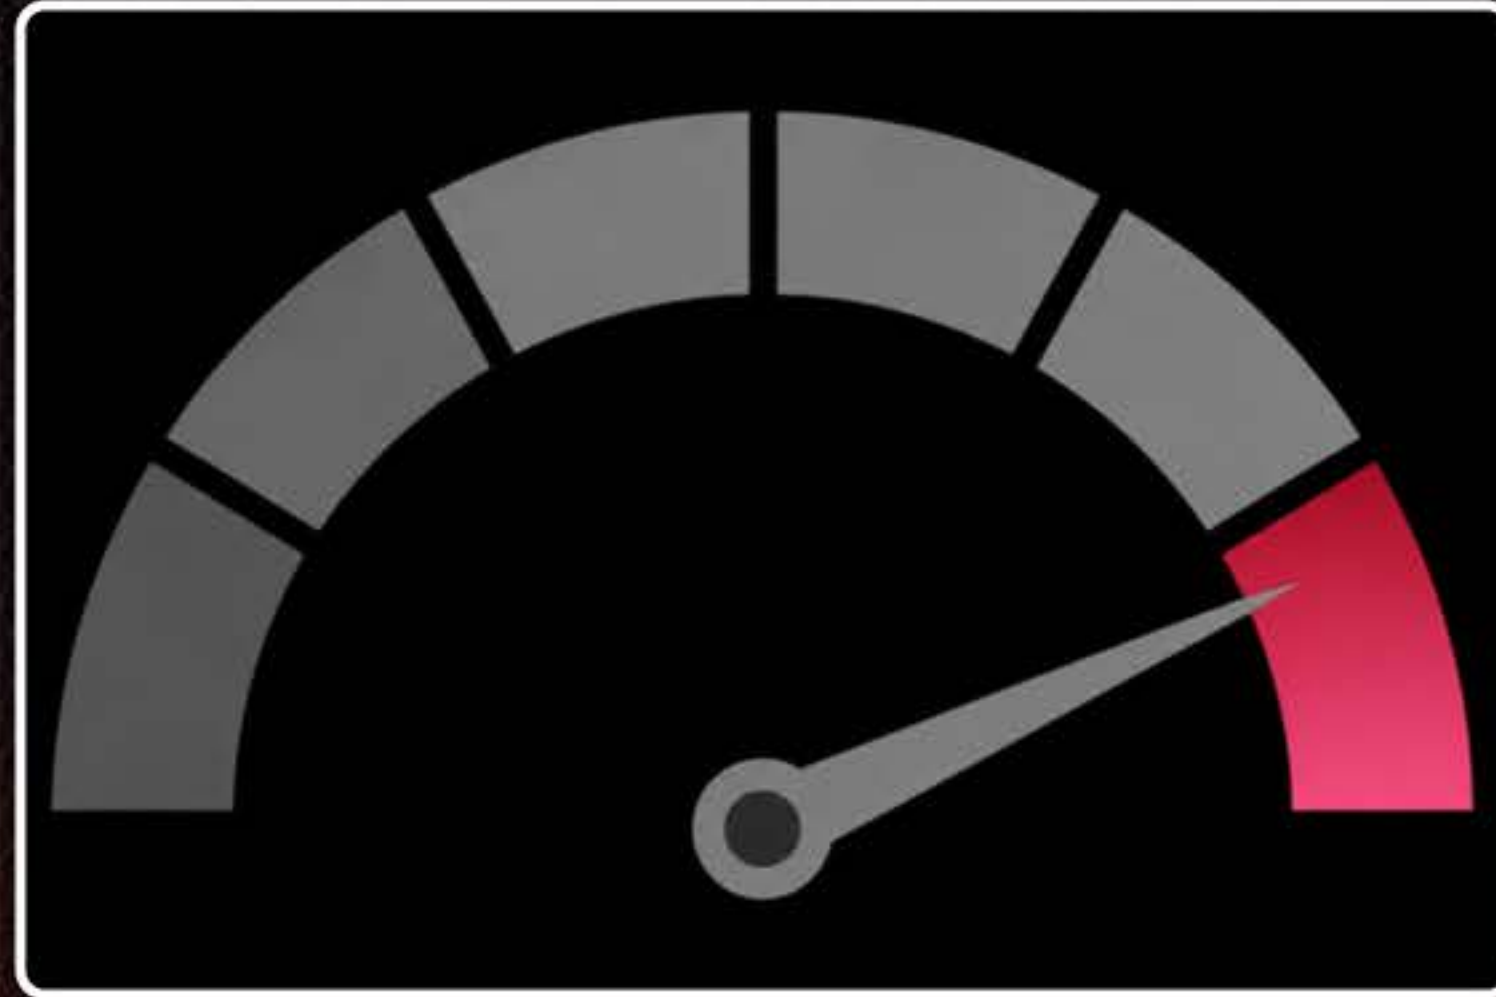

You want to **ditch the tendency**
of pumping out volume.

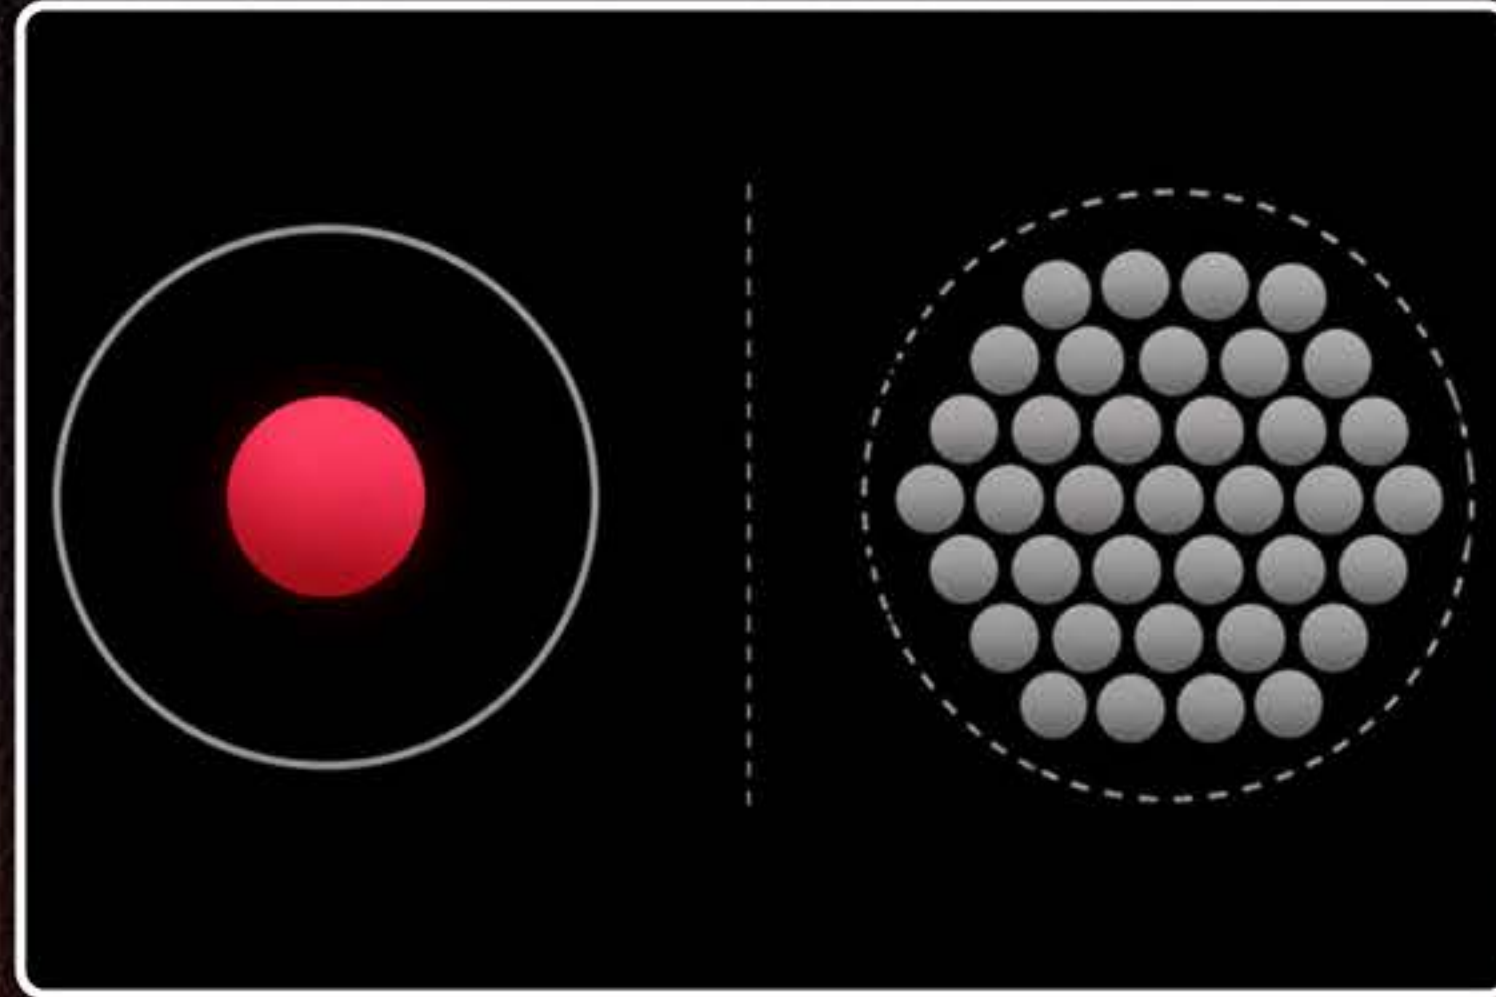

One strong listing **will beat**
a dozen weak listings.

You want to **come across**
as premium as possible.

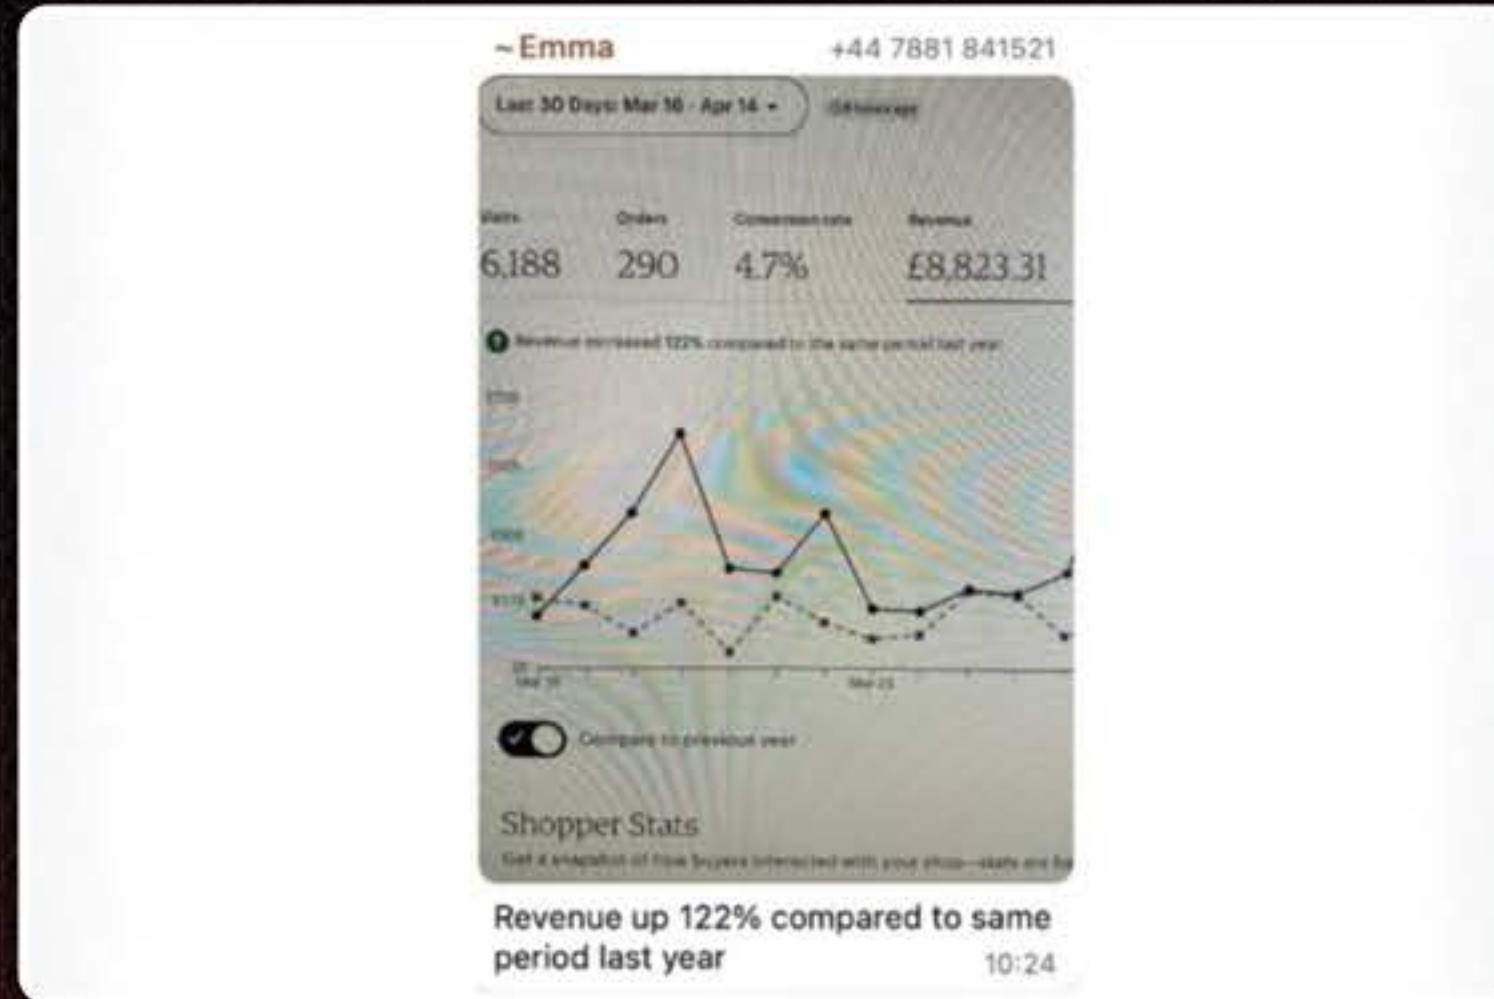

This is what gives your listings
a higher **perceived value**.

You want the listings to belong
to a **category of one**.

This is the very thing that will
improve your **ranking and clicks**.

Emma **felt the power**
of this very early on.

She's **more than doubled** her
previously successful Etsy shop.

Are you still **with me?**

Type “YES” in the chat if you are.

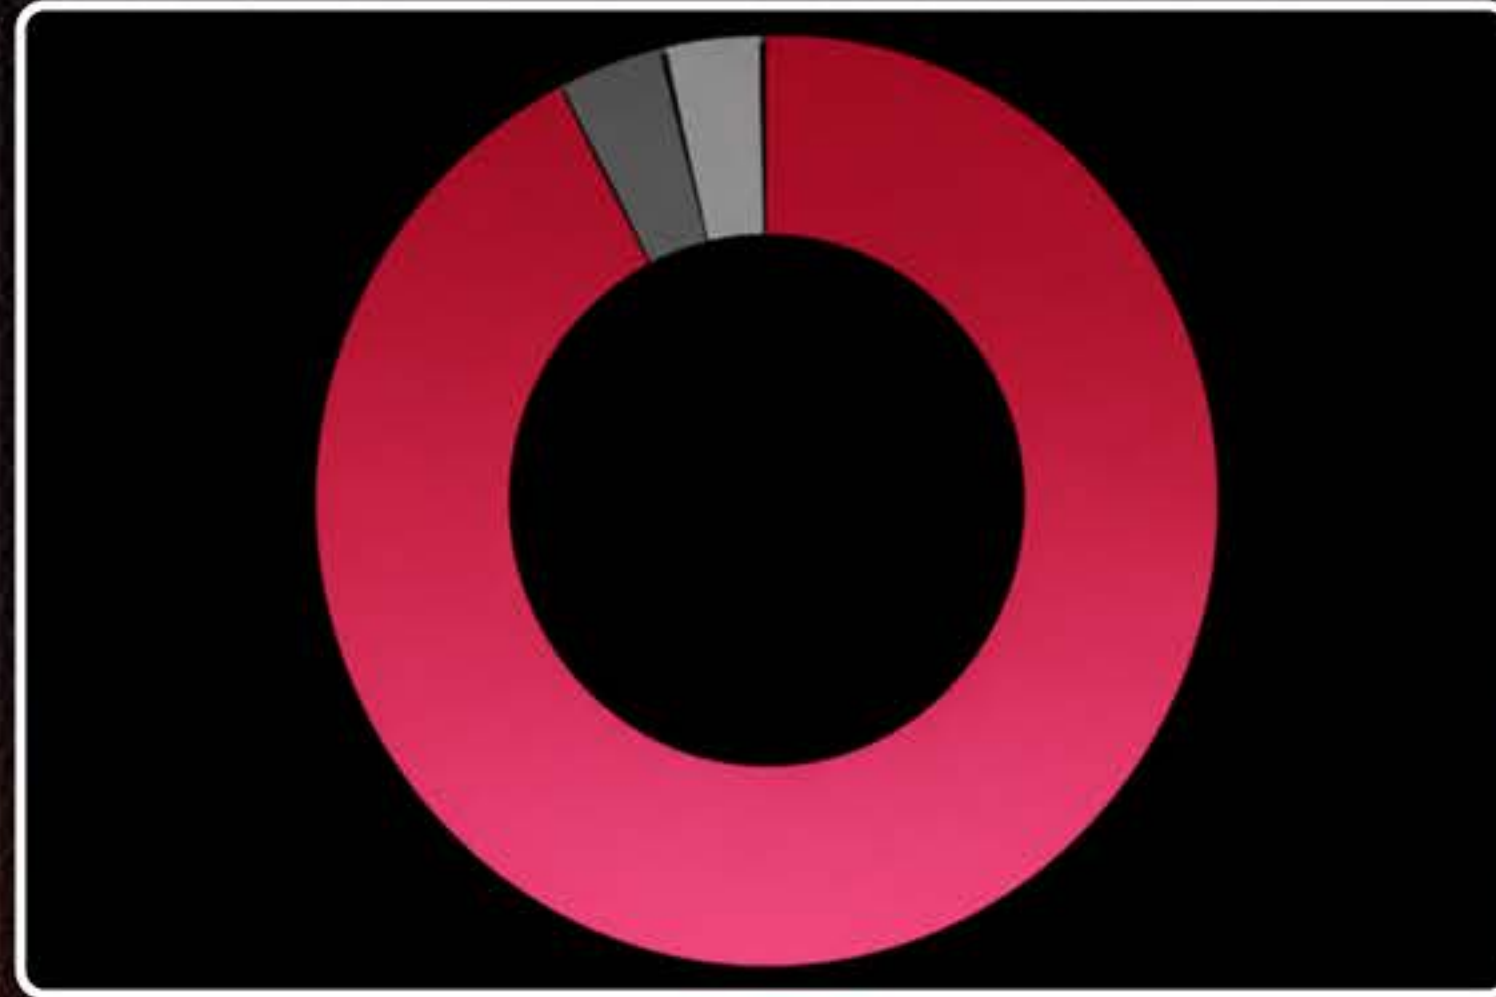

Pillar Three:

How to outperform all of your competitors.

These are the moves that give you
a monopoly over **page one**.

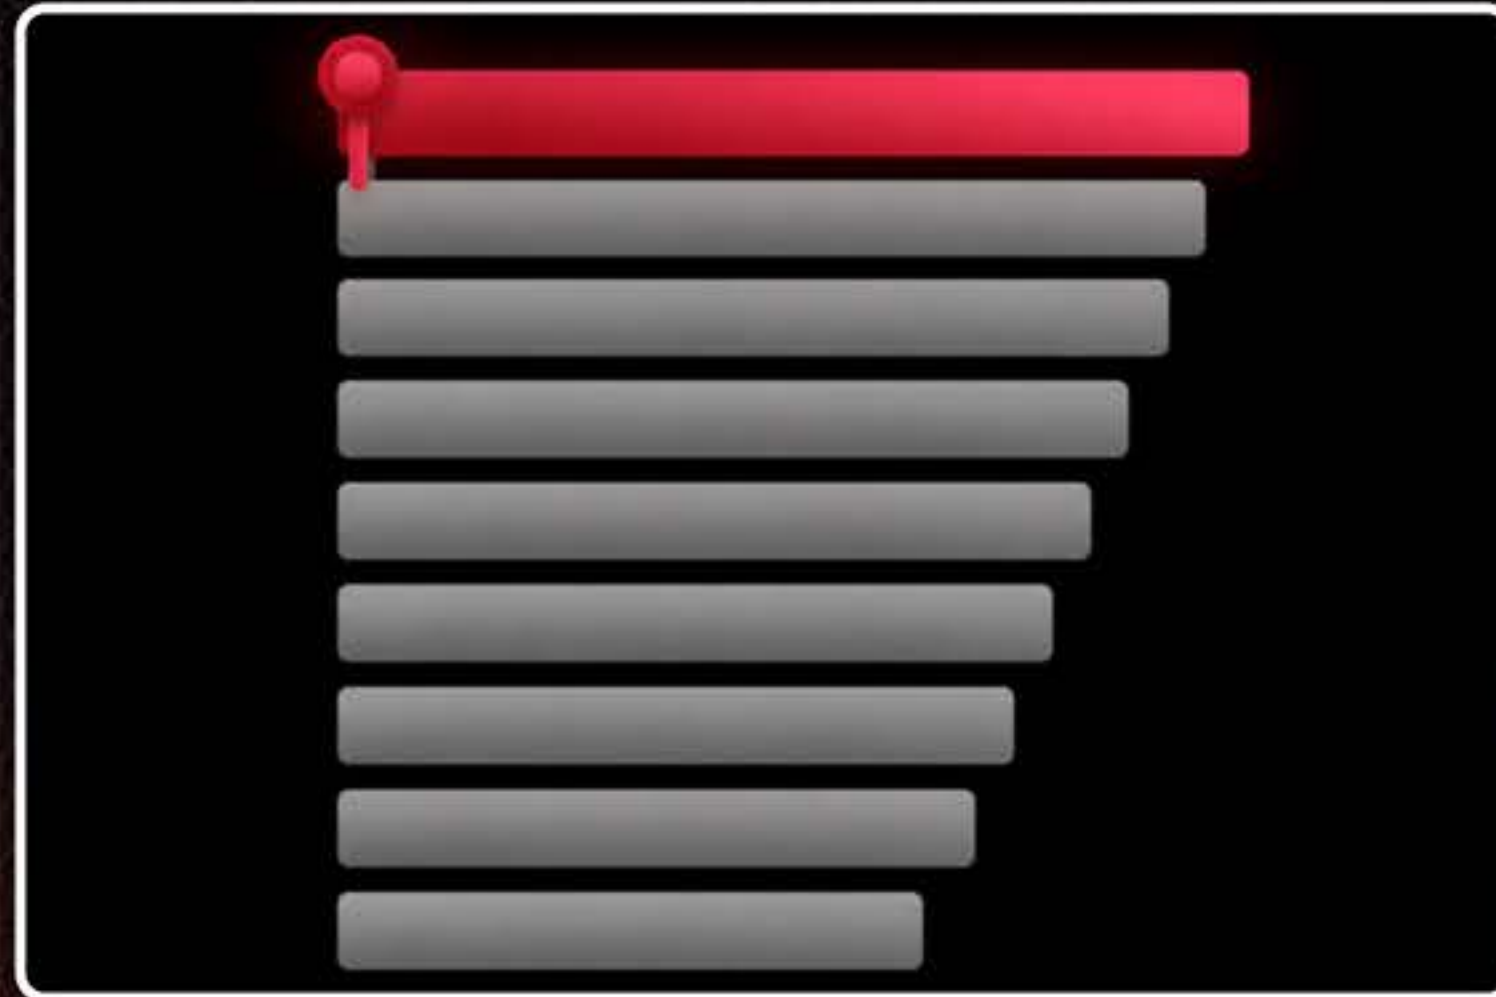

You want your listings to be the ones taking all of the **market share**.

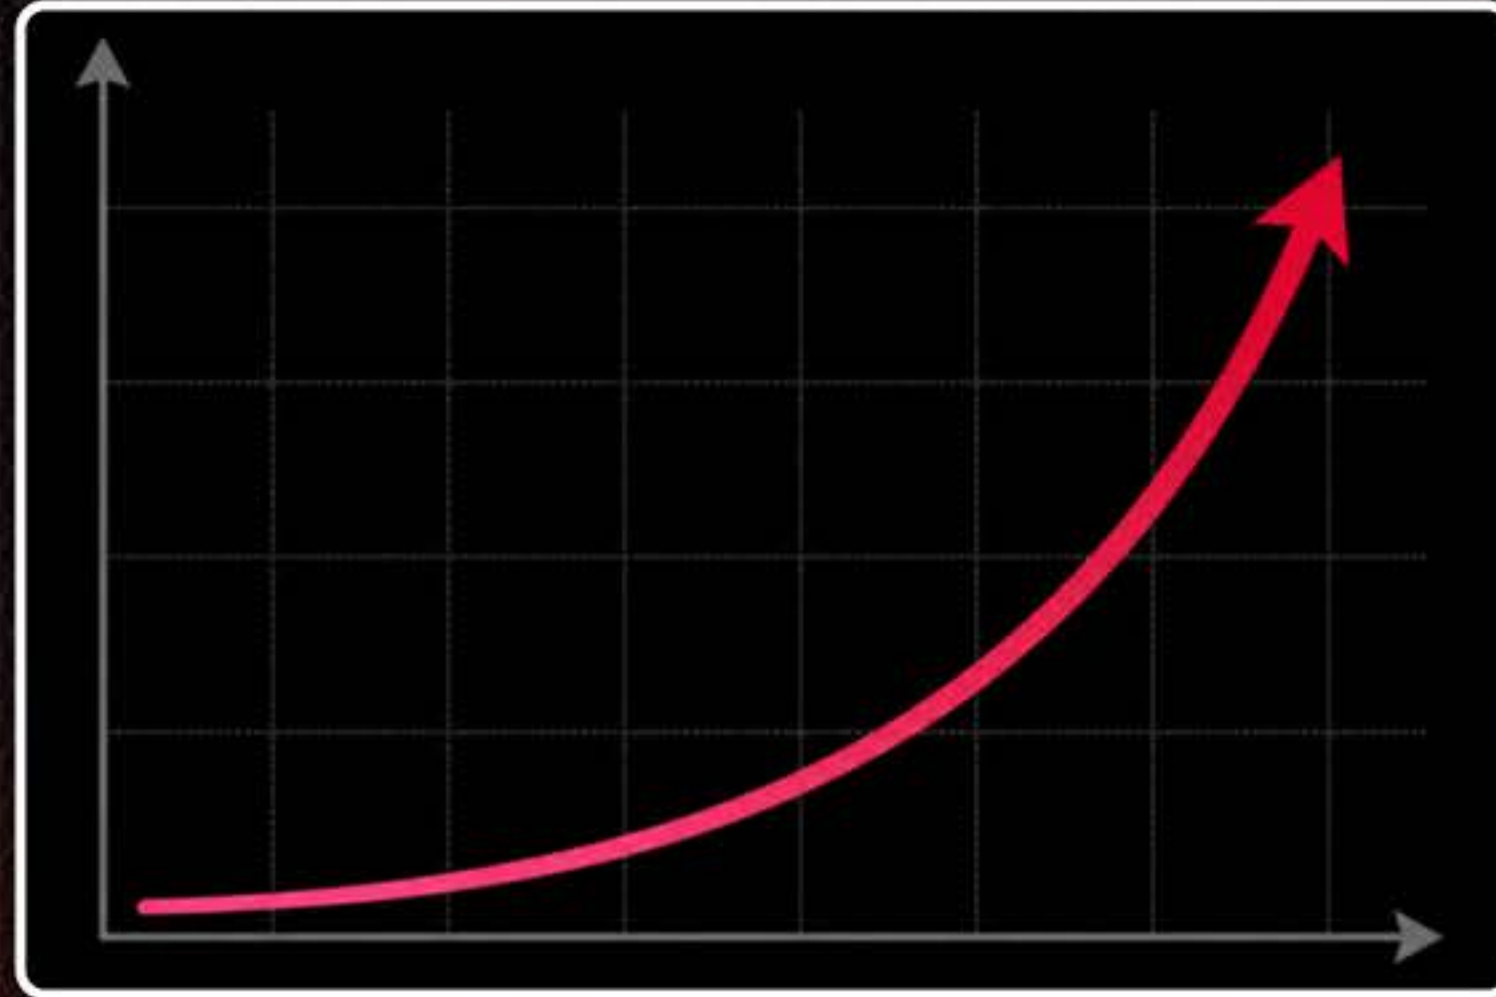

The alternative is them being the ones that take none of the market share.

You want to make your
overall presentation count.

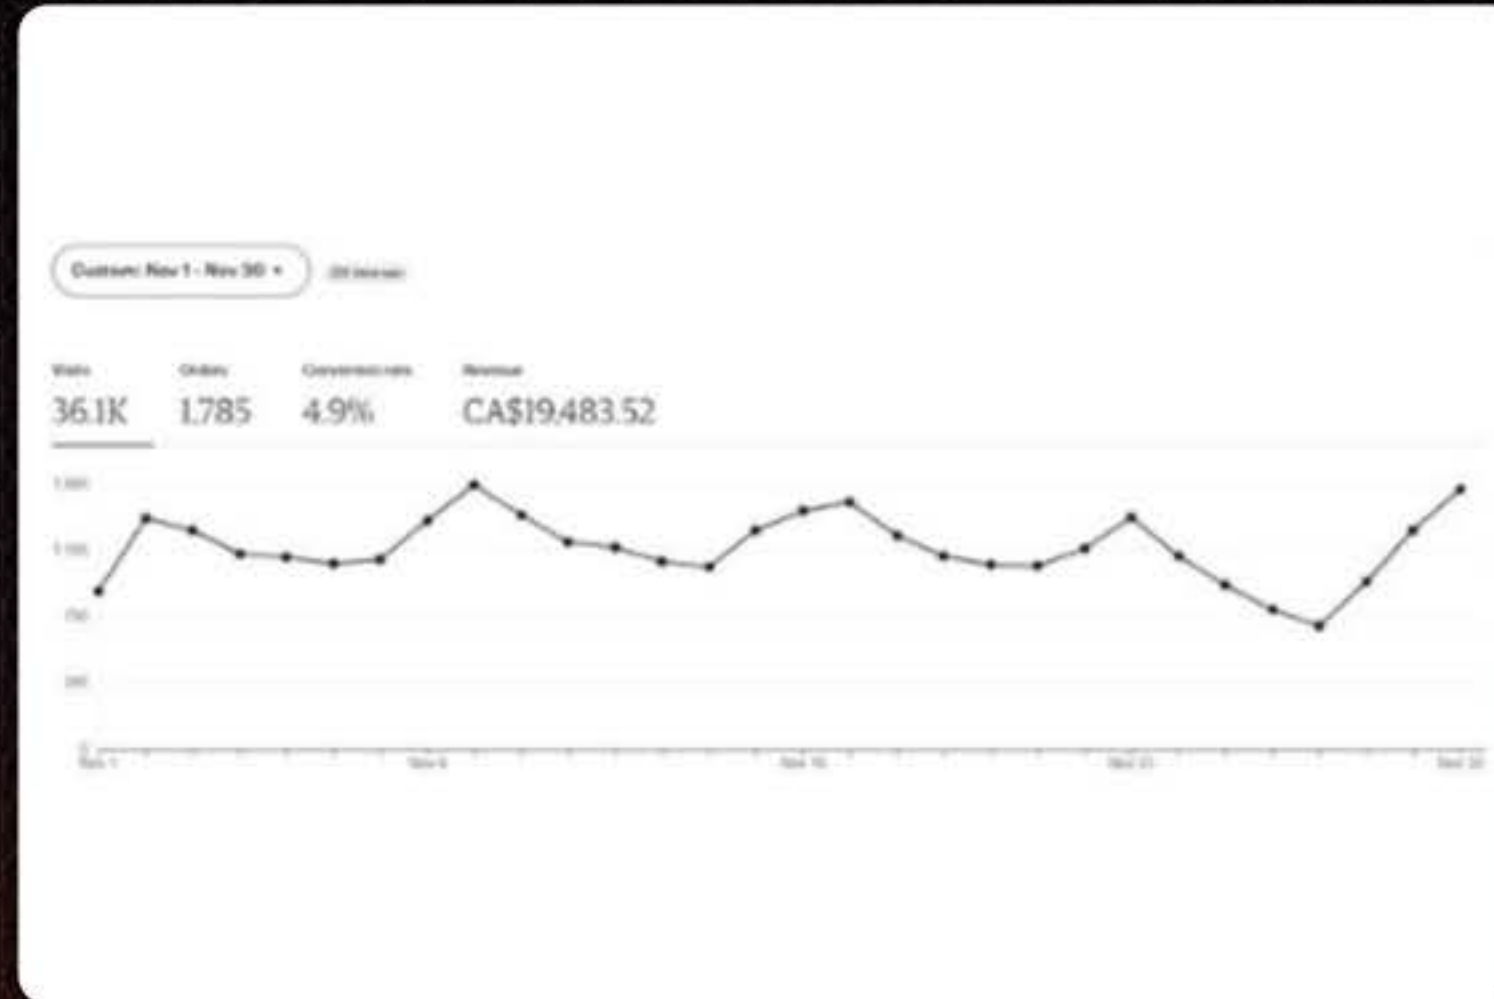

This is how you go about using
the search feature to your advantage.

You want to keep in mind
that this warm traffic is **free of charge**.

All of your winners will compound
over a **long period of time**.

Sharda **proved how far**
this can be taken.

She hit **\$20,000 per month**
in the span of just four months.

Does all of this **check out**?

Type “YES” in the chat if it does.

Do you feel like you **understand**
how "The Precision Play" works now?

**Can you see yourself
making this happen?**

**Do you agree that the free live masterclass
has done a great job at explaining it all?**

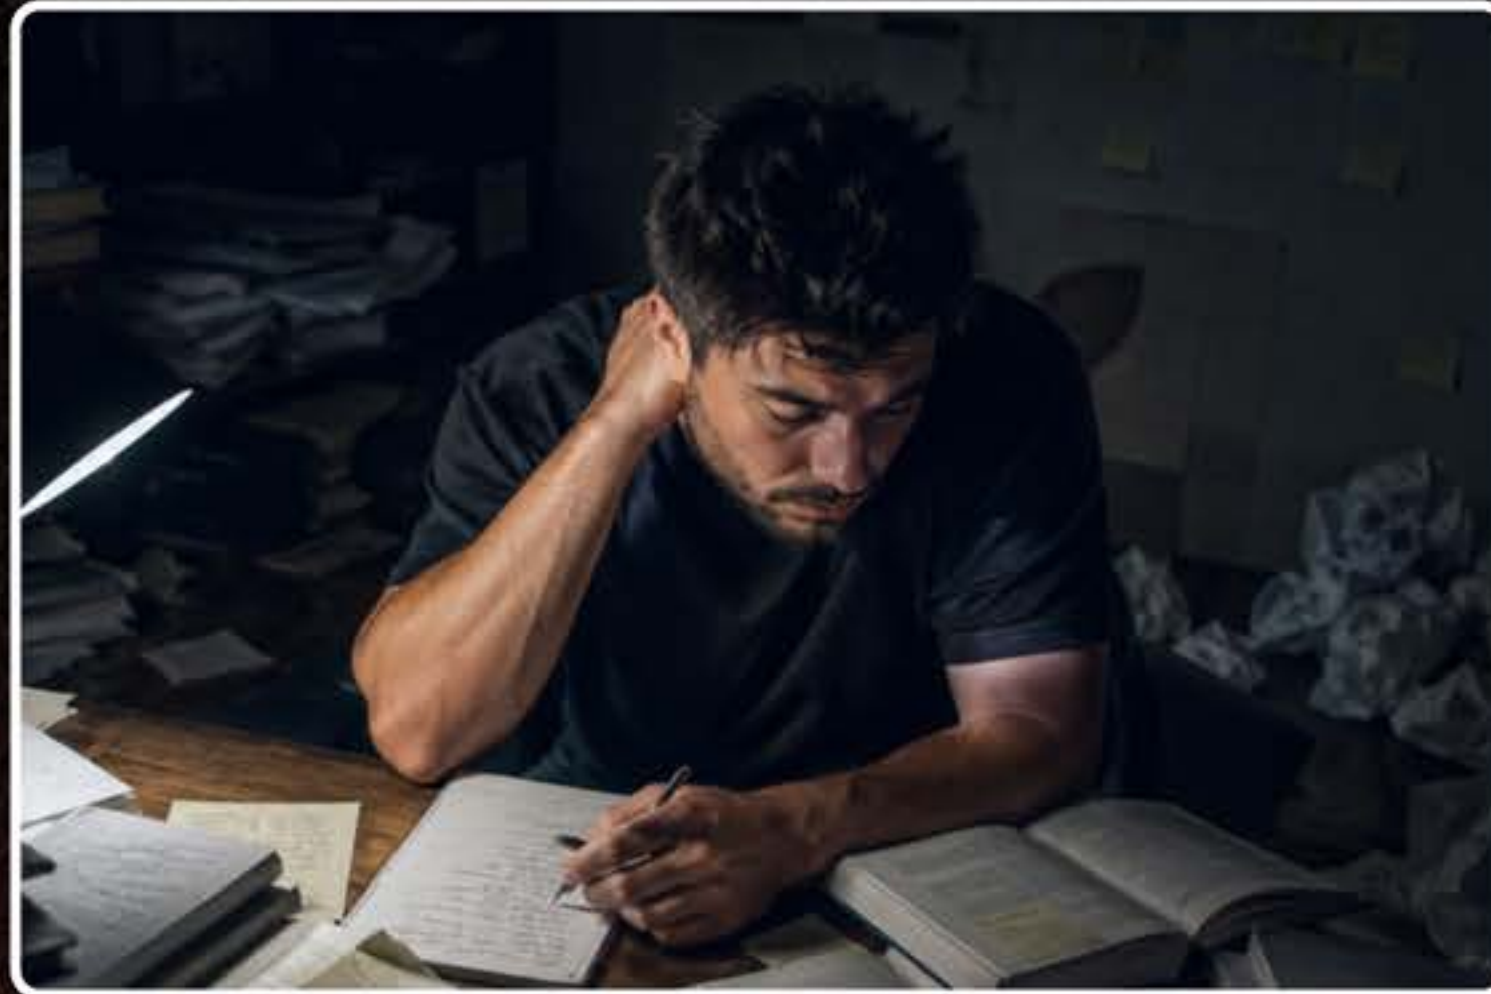

There are **three paths**
that you can take from here...

The first is
doing **nothing**.

You carry on
winging it.

The second is
doing this **on your own**.

You **embark** on a difficult
and long-winded journey.

The third is
doing it **together**.

You **skip** straight past
all of the guesswork.

I was stuck on **the first two paths**
for the longest time.

I'm offering **the third path** so that
you don't have to do the same.

**Are you okay with me revealing to you
what that would look like?**

Type "YES" in the chat if you are.

Introducing **Etsy Accelerator.**

a crystal clear transformation.**
